The joint sports inclusion programme for Cavan and Monaghan organised a three day outdoor activity camp for adults with a disability in the region last week at Tanagh Outdoor Education Centre, Dartry.

Over the event we had eighty participants from six different groups, National Learning Network Monaghan, Steadfast House, Rehabcare Monaghan,

MISE, Rehabcare Bailieborough and Drumlin House.

Each day, participants had the opportunity to try three inclusive activities from Dry Canoe Paddling, Archery, Low Ropes course, Mud sliding and more.

The sports inclusion programme would like to say a huge thanks to Tanagh for facilitating the event at their excellent facility and to all the instructors who

delivered the fun activities, helping it to be a huge success for everyone.

The sports inclusion programme is a joint initiative between Cavan and Monaghan Sports Partnerships which designs sport and activity programmes specific to the needs of people with disabilities in the Cavan/Monaghan region which involves linking with groups,

organisations and services that support people with disabilities.

This activity camp has been kindly sponsored by IP Insurance through their community engagement fund which supports projects rooted in local areas, led by local people to improve the quality of life and promote social integration.
